

Re: 02-278 Indiana Telephone Privacy

I believe that even if you are doing business with a company, They should still follow the guidelines of the "No-Call List".

I know the Bank or Credit Card, and or the Long Distance carrier is there and If I would like to Upgrade any accounts, I will call them. I have no Problem with the Companies contacting me Via US mail.

I ask you to uphold the Indiana Telephone Privacy Act to limit these business from contacting me Via Telephone.
